Tell Your Own Fortune Kit - Jane Struthers

Following on the success of her 25 years as an astrologer, the author has written **Tell Your Own Fortune Kit**, a complete guide to fourteen different methods of divining the future. Chinese astrology sits comfortably alongside the more bohemian palmistry: the Tarot is explained in full, and reading tea leaves (Tasseomancy) is shown to be far more than a party trick. Also included in the kit are I Ching coins, Tarot cards and a pendulum so that these techniques can be explored. Other techniques in the book such as Oracle and Palmistry, require no specialist equipment.
